This company is known for selling some pretty high quality cars with high performance and some good comfort.

- Our advertisement goal is based around our local reach,
- We advertise our cars in the best way possible
- Our audience goal is to promote our newly **modern cars** towards the young age and our older and more simpler cars to the middle age generation and this tells you guys that we offer the best choices for everyone
- We try our methods such as filming the cars and testing them live for you
- Billboards are also a common practice in our cars and tv commercials also suit us

but the one that helps us the most is social media of course, find us at **autosmartcars.mk** in **Facebook and Instagram** and on email **autosmart@gmail.com**

- We proudly help with any of your problems and we offer solution to every single one of them ...

- Our **company** is very new to the game and still we are one of the best company's in North Macedonia.

But we still have some competitors such as:

- *Centrum Co*
- *Auto Cem*
- *Auto Still*
- Those are some very good company's but **we still have better advertising** than them and some better cars
- We really want to take over this business in our country and that's why we have better advertising and some better products than these other company's

Thank you for your attention!
